SOLID WOOD SEATING
AMBASSADOR

The **Ambassador** is a stunning addition to any room. The detailed scroll work and ornate design provide a timeless charm. The solid construction of this magnificent piece provides strength and durability for long lasting endurance.

PRODUCT FEATURES

- 1** Strong, beautiful European Beech hardwood frame
- 2** Field replaceable seat
- 3** Standard and custom stain options available
- 4** Plush 2.5 lbs foam seat and 1.8 lbs foam back provide long-term comfort
- 5** Solid mortise and tenon joints
- 6** Generous gap between the back and seat offers easy cleaning

STANDARD WOOD STAIN OPTIONS

Stain colors match our MityLite® tables, available at mitylite.com. (Custom stain matching is available, but a surcharge may apply.)

SPECIFICATIONS

BACK STYLE	ARM OPTION	FINISH	FABRICS	STANDARD GLIDE
Fixed	Yes	European Beech Hardwood	Grades 1-4+ TB133, COM	Nylon

Available in Bariatric

BACK

High-density foam.

FRAME

The frame is built using 100% solid European beech, a strong, bendable, and renewable hardwood. This light-colored is ideal for staining which provides an attractive finish in any color.

FRAME CONSTRUCTION

Mortise and tenon joints are glued with solid water-based glue and reinforced with 18-gauge nails. Screws and corner blocks provide stability and strength to the main joints.

FRAME FINISH

The stain is hand-wiped into the grain to ensure even color and maximum penetration into the wood. The frame is then sanded and sprayed with two coats of catalyzed finish to prevent cracking and chipping.

SEAT

Elastic webbed seat plate covered with high-density foam

GLIDES

Options include nylon glides, small metal glides, standard metal glides, felt glides, and metal glides with a nylon cap.

OPTIONAL BIBLE BOX

Specifically created for our religious market, the bible box is designed to match the custom stain of your chair. Depending on the model of chair, it had be placed either on the back or underneath the chair. Contact your dealer for more information on this beautifully designed storage solution. (Available on arm chair.)

CASTER

Casters can be added to arm chairs to provide a full 360-degree rotation. The 2-inch sphere wheel and antique brass are designed to not only be beautiful but to act as a guard. We recommend casters only be fixed to the front legs to provide stability for your clients. The casters are professionally installed to ensure there is zero compromise to the integrity of our chairs.

C.O.M. UPHOLSTERY

The amount of fabric needed per chair is estimated using 54-inch (137 cm) wide material. The actual amount required may vary depending on special pattern matching and the width of material. Specific yardages for orders can be provided upon request along with the model, quantity, and fabric details.

Customers are responsible for any additional customs/duty fees for fabrics shipping across the border.
