SOLID WOOD SEATING
CAROLE FAMILY

Heavy construction and durable wood finishes make the **Carole** chairs and barstools extremely sturdy and inviting. The popular "ladder back" design is curved to hug the body, while the arched frame design adds a modern, yet polished look to any room. The seats come in wood or they can be upholstered for added comfort, and style.

PRODUCT FEATURES

- 1 Strong, beautiful European Beech hardwood frame
- 2 Sculpted wood seats provide comfort
- 3 Standard and custom stain options are available
- 4 Plush 2.5 lbs foam seat
- 5 Solid mortise and tenon joints
- 6 Comfortable "ladder back" design
- 7 Generous gap between the back and seat offers easy cleaning
- 8 Antimicrobial finish protects frame from absorbing germs and bacteria

STANDARD WOOD STAIN OPTIONS

Stain colors match our MityLite® tables, available at mitylite.com. (Custom stain matching is available, but a surcharge may apply.)

*Matches MityLite buffet & dining table tops

FABRIC OPTIONS

See holsag.com/fabrics for selections.

SPECIFICATIONS

BACK STYLE	ARM OPTION	FINISH	FABRICS	FABRIC YARDAGE	STANDARD GLIDE
Fixed	n/a	Catalyzed Lacquer	Grades 1-4+ TB133, COM	Visit holsag.com/fabric-requirements	Nylon

FRAME

The frame is built using 100% solid European beech, a strong, bendable, and renewable hardwood. This light-colored wood is ideal for staining which provides an attractive finish in any color.

FRAME CONSTRUCTION

Mortise and tenon joints are glued with high solids water-based glue and reinforced with 18-gauge nails. Screws and corner blocks provide stability and strengthen the main joints.

BACK

The "ladder back" design is curved to hug the body and provide a modern look.

FRAME FINISH

The stain is hand-wiped into the grain to ensure even color and maximum penetration into the wood. The frame is then sanded and sprayed with two coats of catalyzed finish to prevent cracking and chipping.

SEAT

The seat is available with upholstery or with solid wood sculpted at the factory to ensure a comfortable seat. Standard barstool seat height is 30 inches. Chair seat heights are available in sizes ranging from 24 inches (61 cm) to 30 inches (76 cm).

GLIDES

Options include nylon glides, small metal glides, standard metal glides, felt glides, and metal glides with a nylon cap.

BARSTOOL KICKPLATE

Barstool kick plates provide style, protection, and durability. Brass kick plates come standard, but chrome and black kick plates are available upon request for no additional cost.

IN-LINE WHEELS

Our In-Line wheels are available in white or brown, and the housing is cut directly into the front legs of your chair. Professionally secured in our factory, the In-Line option is more subtle than the casters, while still allowing for easy movement.

CASTER

Castors can be added to arm chairs to provide a full 360-degree rotation. The 2-inch sphere wheel and antique brass are designed to not only be beautiful but to act as a guard. We recommend casters only be fixed to the front legs to provide stability for your clients. The casters are professionally installed to ensure there is zero compromise to the integrity of our chairs.

C.O.M. UPHOLSTERY

The amount of fabric needed per chair is estimated using 54-inch (137 cm) wide material. The actual amount required may vary depending on special pattern matching and the width of material. Specific yardages for orders can be provided upon request along with the model, quantity, and fabric details.

There is a \$50 flat charge for COM to cover Duty and Customs charges.
