SOLID WOOD SEATING
CAMPUS 4

The **Campus 4**, a counterpart to the Campus 2-Position, completes this line of academic study chairs. Both models are extremely durable and comfortable, making them suitable for the frequent, extended use required by students. This model stacks 4 high comfortably, which is perfect for dynamic classrooms where floor space may be limited.

PRODUCT FEATURES

- 1** Strong, beautiful European Beech hardwood frame
- 2** Sculpted wood seats for comfort, or plush 2.5 lbs foam seat
- 3** Standard and custom stain options available
- 4** Joinery is dowel construction with metal to metal hardware
- 5** Generous clean out between back and seat
- 6** Non-marring Nylon glides, or front in-line wheels available

STANDARD WOOD STAIN OPTIONS

Stain colors match our MityLite® tables, available at mitylite.com. (Custom stain matching is available, but a surcharge may apply.)

*Matches MityLite buffet & dining table tops

FABRIC OPTIONS

See holsag.com/fabrics for selections.

SPECIFICATIONS

BACK STYLE	ARM OPTION	FINISH	FABRICS	FABRIC YARDAGE	STANDARD GLIDE	STACK HEIGHT
Fixed	No	European Beech Hardwood	Grades 1-4+ TB133, COM	Visit holsag.com/fabric-requirements	Nylon	4 high

FRAME

The frame is built using 100% solid European beech, a strong, bendable, and renewable hardwood. This light-colored wood is ideal for staining in any color.

FRAME CONSTRUCTION

The chair is assembled with hardwood dowels that are connected with metal -to-metal hardware coated in Loctite and reinforced with high solids glue.

BACK

The curve and pitch in the back provide comfort and a modern look. Available in solid wood or upholstered cushion.

FRAME FINISH

The stain is hand-wiped into the grain to ensure even color and maximum penetration into the wood. The frame is then sanded and sprayed with two coats of catalyzed finish to prevent cracking or chipping.

SEAT

Available in solid wood or upholstery, all seats are sculpted at the factory to ensure a comfortable sitting position.

GLIDES

Options include nylon glides, small metal glides, standard metal glides, felt glides, and metal glides with a nylon cap.

OPTIONAL BIBLE BOX

Specifically created for our religious market, the bible box offers beautifully designed built-in storage. The storage box is constructed from sturdy hardwood, attached to the back of the chair, and hand finished to match the chair. Contact your dealer for more information.

C.O.M. UPHOLSTERY

The amount of fabric needed per chair is estimated using 54-inch (137 cm) wide material. The actual amount required may vary depending on special pattern matching and the width of material. Specific yardages for orders can be provided upon request along with the model, quantity, and fabric details. There is a \$50 flat charge for COM to cover Duty and Customs charges.

INTERLOCKING GANGING

This feature is meant to interlock our chairs to create a smooth, continuous look. This allows you to secure multiple chairs together in rows for a straight line every time.

CUSTOM ETCHING

Add elegance to the chairs with an etching of your company or establishment name/logo. Or, add numbering/sequencing. Contact your dealer to arrange and create a custom design to suit any occasion. Etching is only available on solid wood (not upholstered) back option.

IN-LINE WHEEL

In-line wheels are available in white or brown. The housing for the wheels is cut directly into the front legs of the chair. Professionally secured in our factory, the in-line option is more subtle than casters, while still allowing for easy movement.

DIMENSIONS

	SIDE CHAIR
OVERALL HEIGHT	33 in (84 cm)
