SOLID WOOD SEATING
BULLDOG

The name **"Bulldog"** is inspired by the sturdy nature of this product, which that includes a side chair, arm chair, barstool, backless stool, and matching benches. The design includes back slats that are raised from the seat to allow easy cleaning and wood seats are sculpted at the factory to ensure a comfortable sitting position.

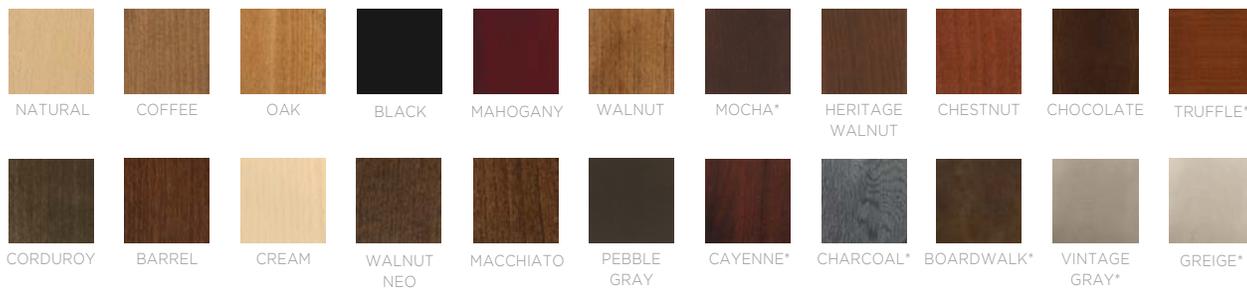

PRODUCT FEATURES

- 1 Strong, beautiful European Beech hardwood frame
- 2 Sculpted wood seats provide comfort
- 3 Standard and custom stain options are available.
- 4 Two-tone stain is available
- 5 Optional plush 2.5 lbs foam seat
- 6 Solid mortise and tenon joints
- 7 Seats are replaceable in the field
- 8 Generous gap between the back and seat offers easy cleaning

STANDARD WOOD STAIN OPTIONS

Stain colors match our MityLite® tables, available at mitylite.com. (Custom stain matching is available, but a surcharge may apply.)

*Matches MityLite buffet & dining table tops

FABRIC OPTIONS

Due to the sewing and style of the chair, upholstery options are restricted to solids and non-matched patterns. Striped fabrics and fabrics that need specific alignment are not recommended. See holsag.com/fabrics for selections.

SPECIFICATIONS

BACK STYLE	ARM OPTION	FINISH	FABRICS	STANDARD GLIDE
Fixed	Yes	European Beech Hardwood	Grades 1-4+ TB133, COM	Nylon

Bulldog Arm Chair also available

FRAME

The frame is built using 100% solid European beech, a strong, bendable, and renewable hardwood. This light-colored wood is ideal for staining which provides an attractive finish in any color.

FRAME CONSTRUCTION

Mortise and tenon joints are glued with high solids water-based glue and reinforced with 18-gauge nails. Screws and corner blocks provide stability and strengthen the main joints.

BACK

The curve and pitch of the chair back provide comfort and a modern look.

FRAME FINISH

The stain is hand-wiped into the grain to ensure even color and maximum penetration into the wood. The frame is then sanded and sprayed with two coats of catalyzed finish to prevent cracking and chipping.

SEAT

Available in upholstered or solid wood seats sculpted at the factory to ensure a comfort. The standard barstool seat height is 30 inches, and chair seat heights ranging from 24 inches (61 cm) to 30 inches (76 cm).

GLIDES

Options include nylon glides, small metal glides, standard metal glides, and metal glides with a nylon cap.

BARSTOOL KICKPLATE

Barstool kick plates provide style, protection, and durability. Brass kick plates come standard, but chrome and black kick plates are available upon request for no additional cost.

OPTIONAL IN-LINE WHEEL

In-line wheels are available in white or brown. The housing for the wheels is cut directly into the front legs of the chair. Professionally secured in our factory, the in-line option is more subtle than casters, while still allowing for easy movement. Available for side chairs and armchairs only.

C.O.M. UPHOLSTERY

The amount of fabric needed per chair is estimated using 54-inch (137 cm) wide material. The actual amount required may vary depending on special pattern matching and the width of material. Specific yardages for orders can be provided upon request along with the model, quantity, and fabric details. Customers are responsible for any additional customs/duty fees for fabrics shipping across the border.

HOODED BALL CASTER

Casters can be added to arm chairs to provide a full 360-degree rotation. The 2-inch sphere wheel and antique brass are designed to not only be beautiful but to act as a guard. We recommend casters only be fixed to the front legs to provide stability for your clients. The casters are professionally installed to ensure there is zero compromise to the integrity of our chairs. Available for side chairs and armchairs only.

CUSTOM ETCHING

Add elegance to the chairs with an etching of your company or establishment name/logo. Or, add numbering/sequencing. Contact your dealer to arrange and create a custom design to suit any occasion.
