SOLID WOOD SEATING
RANDEN ARM CHAIR

The **Randen Arm Chair** provides solid comfort for senior residents as they dine and socialize. The beautiful wooden frame and plush seat make the chair ideal for common areas. The ornate design of the chair features solid arms and a unique cutout on the chair back for added style. The wood is covered with a catalyzed lacquer that features an antimicrobial finish to protect the surface from absorbing germs, bacteria, mold, mildew, and some viruses.

PRODUCT FEATURES

- 1 Strong, beautiful European Beech hardwood frame
- 2 Field replaceable seat
- 3 Standard and custom stain options available
- 4 Plush 2.5 lbs foam seat and 1.8 lbs foam back provide long-term comfort
- 5 Solid mortise and tenon joints
- 6 Nine-step frame finishing process provides a durable stain color that lasts
- 7 Antimicrobial finish protects the frame from absorbing germs and bacteria

STANDARD WOOD STAIN OPTIONS

Stain colors match our MityLite® tables, available at mitylite.com. (Custom stain matching is available, but a surcharge may apply.)

*Matches MityLite buffet & dining table tops

SPECIFICATIONS

BACK STYLE	ARM OPTION	FINISH	FABRICS	FABRIC YARDAGE	STANDARD GLIDE
Fixed	Yes	Catalyzed Lacquer	Grades 1-4+ TB133, COM	Visit holsag.com/fabric-requirements	Nylon

BACK

High-density foam.

FRAME

The frame is built using 100% solid European beech, a strong, bendable, and renewable hardwood. This light-colored wood is ideal for staining which provides an attractive finish in any color.

FRAME CONSTRUCTION

Mortise and tenon joints are glued with solid water-based glue and reinforced with 18-gauge nails. Screws and corner blocks provide stability and strength to the main joints.

FRAME FINISH

The stain is hand-wiped into the grain to ensure even color and maximum penetration into the wood. The frame is then sanded and sprayed with two coats of catalyzed finish to prevent cracking and chipping.

SEAT

The elastic-webbed seat plate is covered with high-density foam.

GLIDES

Options include nylon glides, small metal glides, standard metal glides, felt glides, and metal glides with a nylon cap.

OPTIONAL IN-LINE WHEEL

In-line wheels are available in white or brown. The housing for the wheels is cut directly into the front legs of the chair. Professionally secured in our factory, the in-line option is more subtle than casters, while still allowing for easy movement. Available for side chairs and armchairs only.

HOODED BALL CASTER

Casters can be added to arm chairs to provide a full 360-degree rotation. The 2-inch sphere wheel and antique brass are designed to not only be beautiful but to act as a guard. We recommend casters only be fixed to the front legs to provide stability for your clients. The casters are professionally installed to ensure there is zero compromise to the integrity of our chairs. Available for side chairs and armchairs only.
