DURABLE FAUX WOOD SEATING
GUINEVERE

The **Guinevere Arm Chair** combines traditional and modern design with a durable faux wood frame. The scroll design of the back and gently curved seat and arms provide added comfort. The frame is crafted from strong, lightweight aluminum, which is perfect for heavy use in senior living environments. This chair also stacks 4 high.

This chair is a perfect fit for healthcare and senior living environments and is intended for indoor use only.

PRODUCT FEATURES

- 1 Strong, welded construction keeps joints from loosening without requiring maintenance
- 2 A durable vinyl covering is applied to the aluminum frame
- 3 Exquisite comfort is provided by a plush, polyurethane foam-padded seat & foam-padded back
- 4 Gently curved arms make it easy for users to sit & stand
- 5 The tight seat cushion and shallow seat depth also promote ease of use
- 6 Front ball caster option makes it easy for residents to move & maneuver around the chair
- 7 Nesting design provides easy storage & facility cleaning

SPECIFICATIONS

BACK STYLE	ARM OPTION	FINISH	FABRICS	FABRIC YARDAGE	STANDARD GLIDE	STACK HEIGHT
Fixed	Yes	Faux Wood Metal	Grades 1-4+ TB133, COM	Visit holsag.com/fabric-requirements	Metal	4 high

FRAME

The strong, lightweight aluminum frame is perfect for heavy use.

BACK

The curve and pitch of the scroll back provide comfort and elegance.

FRAME CONSTRUCTION

The rectangular aluminum tubing is formed and welded to create a lightweight and high-strength chair. The welded joints are ground down and blended for a seamless transition.

FRAME FINISH

The frame features a beautiful, powder-coated faux wood finish. A wide range of standard finishes are available, and custom finishes are available upon request.

SEAT

The plywood seat is covered with high-density foam for comfort. A durable vinyl covering provides a seat that holds up in commercial settings.

GLIDES

All chairs ship standard with metal floor glides and an optional plastic cap to protect flooring and provide ease of sliding.

C.O.M. UPHOLSTERY

The amount of fabric needed per chair is estimated using 54-inch (137 cm) wide material. The actual amount required may vary depending on special pattern matching and the width of material. Specific yardages for orders can be provided upon request along with the model, quantity, and fabric details. There is a \$50 flat charge for COM to cover Duty and Customs charges.

HOODED BALL CASTER

Casters can be added to armchairs to provide a full 360-degree rotation. The 2-inch sphere wheel and antique brass are designed to not only be beautiful but to also act as a guard. We recommend casters only be fixed to the front legs to provide stability for your residents. The casters are professionally installed to ensure there are zero compromises to the integrity of our chairs.
