BACK

The Richmond Arm Chair features a stunning upholstered back that is not only comfortable, but the design helps prevent damage to walls.

FRAME

The frame is built using 100% solid European beech, a strong, bendable, and renewable hardwood. This light-colored is ideal for staining which provides an attractive finish in any color.

FRAME CONSTRUCTION

The chair is assembled with mortise and tenon joints and metal-to-metal hardware.

FRAME FINISH

The stain is hand-wiped into the grain to ensure even color and maximum penetration into the wood. The frame is then sanded and sprayed with two coats of catalyzed finish to prevent cracking and chipping.

SEAT

The underside of the seat is supported by a mesh webbing and is fully upholstered for luxurious comfort.

GLIDES

Options include nylon glides, small metal glides, standard metal glides, felt glides, and metal glides with a nylon cap.
