BACK

This Tudor Arm Chair features a stunning, upholstered X-back that is comfortable, and elegant.

FRAME

The frame is built using 100% solid European beech, a strong, bendable, and renewable hardwood. This light-colored is ideal for staining which provides an attractive finish in any color.

FRAME CONSTRUCTION

Mortise and tenon joints are glued with high solids water-based glue and reinforced with 18-gauge nails. Screws and corner blocks provide stability and strengthen the main joints. r strength and stability.

FRAME FINISH

The stain is hand-wiped into the grain to ensure even color and maximum penetration into the wood. The frame is then sanded and sprayed with two coats of catalyzed finish to prevent cracking and chipping.

SEAT

The seat is fully upholstered and supported by a mesh webbing and for luxurious comfort. Customize with fabric to match your space

GLIDES

Options include nylon glides, small metal glides, standard metal glides, felt glides, and metal glides with a nylon cap.

HOODED BALL CASTER

Casters can be added to arm chairs to provide a full 360-degree rotation. The 2-inch sphere wheel and antique brass are designed to not only be beautiful but to act as a guard. We recommend casters only be fixed to the front legs to provide stability for your clients. The casters are professionally installed to ensure there is zero compromise to the integrity of our chairs.

C.O.M. UPHOLSTERY

The amount of fabric needed per chair is estimated using 54-inch (137 cm) wide material. The actual amount required may vary depending on special pattern matching and the width of material. Specific yardages for orders can be provided upon request along with the model, quantity, and fabric details. There is a \$50 flat charge for COM to cover Duty and Customs charges.
