SOLID WOOD SEATING

LUCCA

The beautiful beechwood frame and plush seat make the **Lucca** perfect for hotel lobbies and guest rooms. The stain color is hand-rubbed and covered with a catalyzed lacquer to ensure the color will hold and not show scratches. A nine-step finishing process is used so the gorgeous textures and warm color of the frame won't fade after years of hard use. The chair now features an antimicrobial finish to inhibit the growth of micro-organisms, such as bacteria, fungi, algae, mold, mildew, and some viruses.

### PRODUCT FEATURES

- 1 Built with 100% European Beech hardwood
- 2 Provides exquisite comfort with a plush polyurethane foam-padded seat and back
- 3 Provides added comfort with a web suspension seat base that minimizes pressure points
- 4 Ensures unmatched durability with mortise and tenon joints that are sealed using high solids glue
- 5 Offers a wide range of standard stain colors
- 6 Features a unique nine-step frame finishing process for a durable stain color that lasts
- 7 Provides safety with an antimicrobial finish

### STANDARD WOOD STAIN OPTIONS

Stain colors match our MityLite® tables, available at [mitylite.com](http://mitylite.com). (Custom stain matching is available, but a surcharge may apply.)

\*Matches MityLite buffet & dining table tops

### FABRIC OPTIONS

See [holsag.com/fabrics](http://holsag.com/fabrics) for selections.

### SPECIFICATIONS

BACK STYLE	ARM OPTION	FINISH	FABRICS	FABRIC YARDAGE	STANDARD GLIDE
Fixed	n/a	Antimicrobial catalyzed lacquer	Grades 1-4+ TB133, COM	Visit <a href="http://holsag.com/fabric-requirements">holsag.com/fabric-requirements</a>	Nylon

### FRAME

The frame is built using 100% solid European beech, a strong, bendable, and renewable hardwood. This light-colored wood is ideal for staining which provides an attractive finish in any color.

### FRAME FINISH

The stain is hand-wiped into the grain to ensure even color and maximum penetration into the wood. The frame is then sanded and sprayed with two coats of a catalyzed antimicrobial finish to prevent cracking and chipping.

### FRAME CONSTRUCTION

Mortise and tenon joints are glued with high solids water-based glue to strengthen.

### BACK

The form-fitting, curved back is constructed with wood and features three cutouts for easy movement.

### SEAT

The plush foam seat is 2 lbs thick for added comfort.

### GLIDES

Options include nylon glides, small metal glides, standard metal glides, felt glides, and metal glides with a nylon cap.

### BARSTOOL KICKPLATE

Barstool kick plates provide style, protection, and durability. Brass kick plates come standard, but chrome and black kick plates are available upon request for no additional cost.

### C.O.M. UPHOLSTERY

The amount of fabric needed per chair is estimated using 54-inch (137 cm) wide material. The actual amount required may vary depending on special pattern matching and the width of material. Specific yardages for orders can be provided upon request along with the model, quantity, and fabric details. There is a \$50 flat charge for COM to cover Duty and Customs charges.
